MORNONS IN IDAHO

A Decision That Greatly Pleases the Gen tille Element

SAIT LARY CITY Oct 17—A Tribune dispatch from Blackfoot Idaho, says Judge Berry has denicd a writ of mandate to compeling the says that the same of the registry list Wooltry asked the court to granta mandamis compelling the officer to accept and register his name. The register urged as a reason for his refusal that the applicant belonged to a sect, so carty or organization that advocates and pructices polygamy. The court denies the writ, and holds that the name was properly refused, and finds as a matter of fact that the Mormon organization in Idaho does teach and pructice polygamy.

The decision is halled with joy by the Gentiles, who hold it of equal importance with former decisions sustaining the validity of the test oath.

The Mormons of that county (Brigham) indignantly deciare that they mean to vote anyhow, but miles the registration officers enter their names collustrely, and in defiance of the law it is hard to see how they can carry out their lingsi purpose A Decision That Greatly Pleases the Gen

K Wood with (600 feet of aimber from Grity's habor decked to-day. Capt Larsen set the crew to werk jutting the limber on the wharf to be I and ed by the stevedores who had beer engreed to unload the schooner. These withher refused to touch a plank unless the uptain discharged the smiors and put in less tory to put the lumber on the wharf this the captain refused to do, so the slevedores refused to take the lumber from sailors on the ground that the reless of the Limbermen's union forbide its members to receive a cargo from sailors on schooner scarrying more than 250,000 feet of lumber. The captain of the schooner had either to Eischarge his subfor or keep his lumber aboard, so he finally de cided to do the forme. This ended the trouble, for the stevedores went shoard and began work unloading without further difficulty.

The sendte then resumed consideration of the tariff bill, and was addressed by Teller. He would not, be said, here vertured to from the sendte with any remarks if the secretary of the treasury had not each fire cently to make some statements in a public speech from the steps of the sub-treasury in New York which he (Teller) thought was not supported by the record and needed contradiction. The secretary had fallen into the very general mistake that the interests of Will street were the interests of the whole country and that if the solts of the administration were in accordance with Wall street ideas they must be noossayily in the liner est of the whole people. He (Teller) demed that such inference was correct. What he complained of was that the financial jolicy of the administration had been conducted on a Wall street thierests to the entire disregard of the great interests to the people. Teller having referred to the attempts of the administration to suppress the allyer dollar colonage and having upbraded the democratic senators and representatives for their failure to oppose them, Pugh asked him whether the bulk of the Southern democratic hardwards and whether they were not now thanged as being conspirators in a now oncoming and whether they were not now thanged as being conspirators in a now oncoming and whether they were not now thanged as being conspirators in a now intent to destroy Northern industries.

On this basis as we have seen there would be a lenio ratic majority in the two rate or the state outside the netropolitan

ire two other counties within what may be ermed the metropolitan district—Richmond and Queens—that throw considerable democratic majorities Together they gave Cleve-land 3892 plurality in 1884. Hence the total plurality for the yeland in the metropolitan district embracing the four counties was 62.675 In the same counties in 1880 the plu rality for Hundock was 54.160 Cleveland carried the state by 1047 and Hancock to 1

Compared with 1880 there was a gain for Seveland in the metropolitan district of \$525. This would easily have been overcome had Blame held Garneld's vote in the interior but he lost more in the interior thun he lost in the metropolis—due chiefly to the opposition of the friends of Mr Lonkling This likewise is an opposition to which Har rison is not subjected and the republicuits of the state of New York behave that Harri son's majority above Harlem bridge will be as large as Garfield's was in 1890 if not larger. That majority was 75 193. We do not think Cleveland will carry New York next month quiess his plurality in the metro. pointan district shall exceed 75 000, and not haps not unloss it shall reach 80 000 which would be an acresse of more than 30 000 over his plitrality of 1884. There are good reasons why the republi

there are good reasons why the reputility cans should expect their plurality in the state outside the metropolitan district to be as large as that for Garfield in 1880 if not larger. The tariff question as presented in the democratic cheme affects Northern and the democratic scheme infects northern and Western New York 1 of as it affects the importing as d manufacturing netropolis but us it flects the jaducers of materials in Ohio Michigan and Oregon. Northern as d Owing the will be strongly against free trade in wool in salt and in lumber for as people there are large producers of them if they will object thewase to free trade in as numerous products of agriculture that the Mills o 1 proposes to put on the free list and there is a community of interest between producers of the country and the manufacturers of the great cities — It is reasonable therefore to supple that Northern and Western New York will vote very beavily again to the democrate tariff scheme. probably indeed after that is steemen-probably indeed after that any other part of the lant distance in Northern and We tern New York and apparently with rea of they a sert that they not only our hold their analority up to that thrown for Carbeld in 1880 but will come erably increase it. Estimates of the result thrown for Carneld in 1980 but will con iderably increase it. Estimates of the republican majority north of Harlers vary from 75 000 to 2000. It is believed that even the smaller of the e-mu abers will suffice to overcome the democratic majority in the interopolitan district. The position of the method and reportant to be an important the metropolitan district. The p oblist on vote does not promise to be an important factor. Large pi tof it in 1834 was cast as a protest against the candi factor of Mr. Blaine. The prohibitionests are found in city in the rural districts and it is the people of these districts who are most injured by the denocratic tarili scheme. We think it probable that Northern and Western New York will that Notices I control to the North New Langer republican majority than ever before and the question as to the state of New Lorkis whether there will be an increase of the opposition majority in the metal crease of the opposition majority in the metal control to the North New Langer (and the little metal) and descended from the North New Langer (and to Wentworths who bore a

It is a well known feet that there has been a great deal of sich ness among the democrate of Oregon since the promu gation of the morning of June 5 has gridly aggravated the midaly but I would be to enquire it that fact absolves them from all obligation to mainfest common couriesy to a political opponent? Did not common couriesy to quire that the democratic committee should give me official notification of Mr. Supworth's faiture to meet his appointment and the reasons for such future?

I have no doubt that Mr. Skipworth was ill but I would have been vitality enough left in my body to have dragged me to the place of neeting and had I been unable to stand and discuss the issues I would have discussed them sitting.

I have already filled two of the appoint meets without meeting my opponent or receiving any explanation of the reasons for his non appearance. I do not think the democratic committee has acted an good faith therefore shall decline to hold myself bound to any agreement heretofore made Coll Effinger doubtless had business engagements by how a great the hands of the people we expect that private micreas will give way to public dutes. If the democratic committee was acting in good faith and not play I thinger s pushess on, ignments were to he that he would be unable to made Mr. It iton but added that M. Stapworth would meet

Coffee has shown a marked im provengent during the week, prices advancing rom algely per pound awing to an improvenent in New York based thou the reported shortage in the Hrazilian crop. At the close, holders are very firm at quota tions.

The market for Island rice is a trifle stronger as the atock is all in warehouse. While \$4 per 100 nounds is generally asked, the bast sales were inade at \$4 87/4. Wared rice is not 100 liwer per two matz, due to heavy recent at itsels by steam and sail.

The demand for canned goods of all kirds continues fairly active, but there have been no changes in quotations.

On the 2 o clock train from Tacoma yes-terday morning the Marquis of Queen-berry arrived in this civ.

John Sholto Donglas or as he is more commonly known by the name of Marqui of Queen berry cours from the old Scotch family of Donglas—belding a prominent part in the history of Scot and I He is a in in of rather below the medium highlosmeth free with local sideburns and about 40 years of here.

In conversation with an Oricovist reporter at the famond hot I yesterday after moon he was found to be a very pleasure and versatile tilker. The first question that hada riv suggested itself was the circumstance of the adoption of the prize lighting rules beering his name. I am the author of thit code of spirring

rules he said but when they were trained there was no thought but they should ever be used for governing it realight. It was some twenty two years ago when I was son siderably interested in the art of securities being I offered three cips to be contested to by the Amateur Athletic (but). One cup was for each the champion

One cup was for each the chimpion heavy weight and light weight file rules now beiring my name were simply frience, for governing the star ing in this coults for these up soon after however these rules were adopted by ithialic class i different parts of the country and r w do circulation was this solven to the rules of bodying that were only designed for the government of one club. What is the statu of thicket sporth in Pulchade at the present day.

There is a great deal of interest taken in scientific sparring but prize fighting has fallen out of repute there never was much sentiment in support of such british could be added to the constitution of the country of the propular sport among the athlete and sport ing clubs of highing.

You have perhaps attended on the sentiment of the important prize hight across the water.

Ye I was present the prize hight he

water.

As I was present the prize light he tween bounth and k frain I onsider kil rain much the better man of the two What is you quin n of our Boston champion John fullivan.

Well you know I have never seen fulli yan in alight. I do not think however that he is touch of a fighter. His best days have gone by I do not think he holds the right position either. He is a prize lighter when he might be a good scientific glove artist.

Now what of your but Iners and incesion

Now what of your his finess and mission an taking this trip

The journey is tak in partly for pleasure and partly for some belonger that to appear them to upper taining to my property near Winnipeg I left Fig and a last April and went by the way of Australia This is a very promising country badies especially is fast riging to the front as a commercial cit At the bandwich islands I remained six
